Benefits for you

Benefits

- The amount you gain from the workshops is directly proportional to the effort you invest.
- To make the most of the workshop, it is recommended that you review the guide(s) and/or Skills Boost content beforehand.
- The instructor will show demos, etc. to illustrate some of the key topics in the guides, but not all

Proprietary + Confidential

Objectives

01 Create deterministic and generative Conversational Agents with Flows and Playbooks.

02 Connect your agent with external services using Tools and Webhooks.

03 Implement complex hybrid agents with Flows, Playbooks, Generators, Generative Fallbacks and data stores.

04 Deploy and maintain data stores that enhance Conversational Agents with your own enterprise data.

Proprietary + Confidential

Agenda

01 Conversational Agents overview

02 Generative Playbooks

03 Virtual FAQ with data store agents

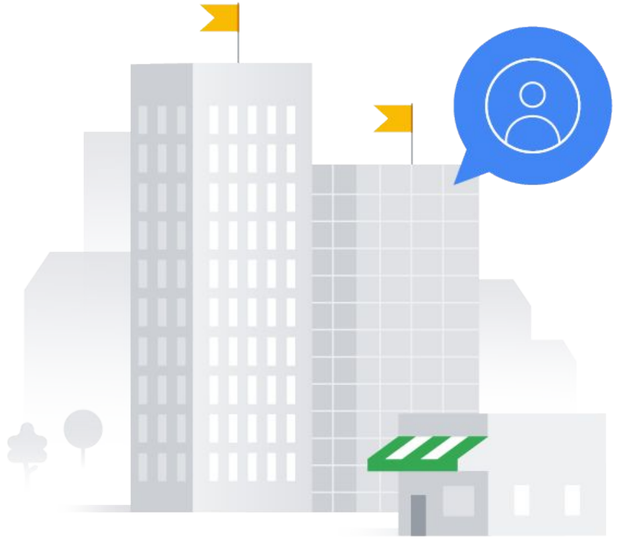
04 Incorporate generative features into Conversational Agent Flows

05 Production-ready Conversational Agents

Proprietary + Confidential

Target audience

- Those developing Conversational Agents solutions



Google Cloud

- Developers
- Conversational Designers
- Engineers

Proprietary + Confidential

Lab environment

For each lab, Qwiklabs offers:

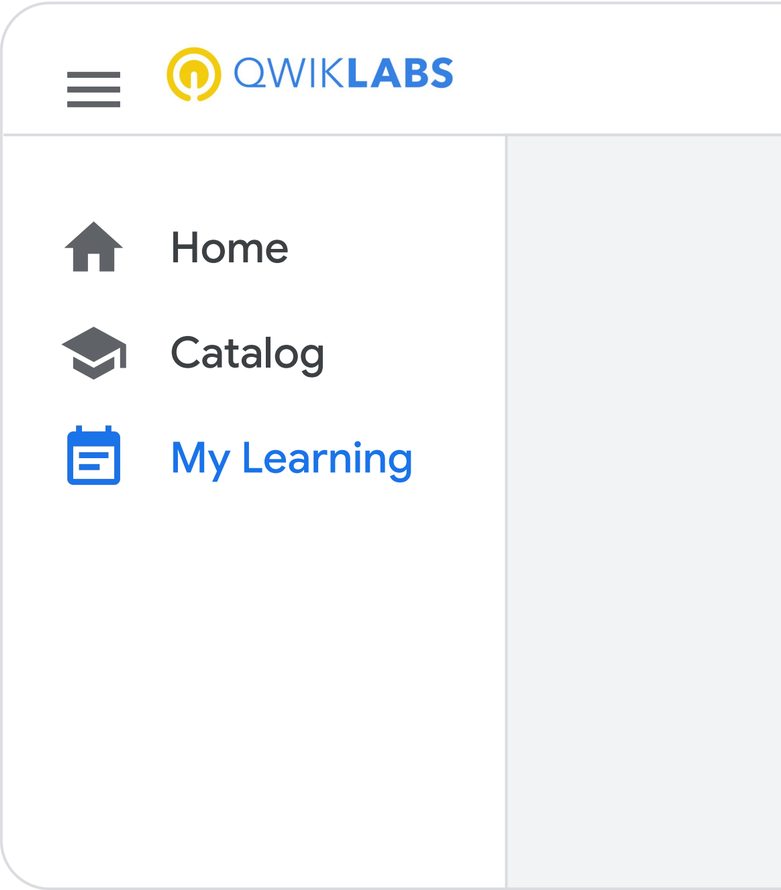
- A free set of resources for a fixed amount of time
- A clean environment with permissions

QWIKLABS

Proprietary + Confidential

Open Qwiklabs

1. **Open an incognito window** (or private/anonymous window).
2. **Go** to the Qwiklabs URL your instructor provides.
3. **Sign In** with existing account or **Join** with new account (with email you used to register for the course).
4. Launch the course from **My Learning**.



Access issues

The process to open Qwiklabs can differ based on credentials used. Please reach out to your trainer if you have any access issues.
